GENERAL DIRECTORATE OF CULTURAL HERITAGE RHINELAND-PALATINATE: WE BRING HISTORY TO LIFE

Rhineland-Palatinate, a centre of European culture, has a lot to offer. Set off on an exploration tour and discover monumental Roman buildings, medieval castles, historic palaces, top-class state museums and a variety of attractive events.

There are no fewer than seven UNESCO World Heritage Sites in the state: Speyer Cathedral; the Roman monuments in Trier, Cathedral of St. Peter and the Church of Our Lady; the Upper Middle Rhine Valley and the Upper Germanic-Raetian Limes and, since 2021, the ShUM sites of Speyer, Worms and Mainz; Bad Ems as one of the most important spa towns in Europe and the Lower Germanic Limes.

The General Directorate of Cultural Heritage (GDKE) brings this great history to life. It not only opens up the state's own castles, palaces and antiquities, but also forms the umbrella for the Directorates of State Monument Preservation, State Archaeology and the three outstanding state museums in Koblenz, Mainz and Trier.

You can look forward to a wide variety of exhibitions, events and living history programmes. Have fun on a journey of discovery through the cultural heritage of our state!

Limes

UPPER GERMANIC-RAETIAN LIMES

With a length of 550 kilometres, the Upper Germanic-Rhaetian Limes is the longest monument in Europe. Its forts, watchtowers, walls and palisades demarcated the former Roman world power from free, "barbarian" Germania.

WORLD HERITAGE BAD EMS – GREAT SPA TOWNS OF EUROPE

Masterpieces of spa architecture with magnificent buildings from the Baroque and Classicist periods and healing waters from no less than 15 springs: The Rhineland-Palatinate spa town of Bad Ems is one of the most important spa towns in Europe.

LOWER GERMANIC LIMES

2,000 years ago, a approximately 400-kilometre-long section of the outer border of the Roman Empire ran through the Netherlands, North Rhine-Westphalia and Rhineland-Palatinate. Remagen, as the Rhineland-Palatinate partner of the Lower Germanic Limes, is delighted about the UNESCO award.

SHUM SITES OF SPEYER, WORMS AND MAINZ

ShUM – that is what Jews called the important Jewish communities of Speyer, Worms and Mainz. The unique monuments preserved there, synagogues, fraunschuln and mikvahs, bear witness to the creative power and the immense importance of these Jewish communities.

PALATINATE – THE CASTLE REGION

One romantic castle next to the other, mighty rocks, extended forests – not for nothing is the Palatinate Germany's castle region. In the Middle Ages the region was one of the most important areas of the Empire. Today you can experience how kings, counts and knights used to live and fought for power and wealth on Trifels Castle, the Dahner Castles or the Hardenburg Castle and Fortress ruins.

VILLA LUDWIGSHÖHE PALACE

LARGE GARDENS AS FAR AS THE EYE CAN SEE

Villa Ludwigshöhe Castle is located on a hill above the picturesque town of Edenkoben, surrounded by vineyards and protected by the Palatinate Forest Nature Park and Biosphere Reserve. Follow in the footsteps of Ludwig I of Bavaria. With this building, the aesthete fulfilled his dream of an “Italian-style villa, intended only for the beautiful season and located in the mildest part of the kingdom”.

The classicist villa, reminiscent of ancient models, impresses with its precious hardwood floors and Pompeian ceiling and wall paintings.

The loggia offers a magnificent view far across the Palatinate and the Rhine valley.

TRIFELS CASTLE

THE MOST POWERFUL CASTLE OF THE STAUFERS

Between 1088 and 1330, Trifels Imperial Castle was one of the most important centres of power under the Staufers and Salier dynasties. The imperial regalia, such as the crown, sceptre and orb, were kept here.

The castle also served as a prison. Its most famous prisoner was King Richard the Lionheart of England. From the plateau of the keep, you have a unique view of the Palatinate Forest.

NANSTEIN CASTLE AND PALACE RUINS

MIGHTY THRONE ON A SANDSTONE CLIFF

Besieged, destroyed, rebuilt, destroyed ... The history of Nanstein castle is a tale of the struggle for power, of successes and failures, but also of the courage to start again. Built in the 12th century, it turned into one of the Staufer's largest fortifications. The "last knight" Franz von Sickingen, once Lord of Nanstein, died in his castle after a violent siege.

On the Neu-Dahn castle ruins you can climb one of the oldest turrets in Rhineland fortification architecture.

ALTENBAUMBURG CASTLE RUINS

FROM STRATEGIC SPOT TO QUARRY

Strategically, the situation at the exit of the Alsenz Valley was extremely favourable. However, from the time the Raugrafen line had died out in the 14th century, Altenbaumburg served merely as quarry. The impressive remains of the wall still allow to identify the castle's former structure. Only the Palas was rebuilt.
